- Reliable
- Flexible
- Innovative

NARR Vertriebs GmbH is a global acting partner company of the NARR-Group specialized in the development, distribution and logistics of container modules for military- and aid-organisations. Our business activities range from planning to logistics, assembling and maintenance.

Together the NARR Group offers the best solutions for your requirements and puts your individual wishes into action.

For your ideas, for your success.

CRM - EUROLIGHT®

This simple modular building system consists of several elements: a adjustable, galvanised, pluggable steel-structure plus floor-, wall- and roof-sections. Our system provides an excellent thermal insulation and multi-purpose capabilities, e.g. as:

- durable dormitories
- multi-purpose offices
- mobile health care centre / mobile army surgical hospital sterilization facility
- laboratory
- field kitchen
- workshop
- coldroom or deep-freezing room providing storage capacity for groceries, pharmaceutical products, etc.

Key benefits of CRM

- easily expandable due to usability as a single unit or as a combination of two, three or more modules
- individually modifiable through our modular system and the flexible positions of doors and windows
- easy assembling and disassembling requires no crane
- a plane sub-structure due to adjustable supporting elements
- provides protection from weather-conditions (rain, storm, hail, snow)
- environment-friendly through ecological materials usage
- deployable in all climatic regions worldwide, from -32°C to +49°C (approved by climate chamber tests)
- excellent acoustic insulation as well as compliance with fire protection standards
- leak-tightness up to a differential pressure of 150 Pascal
- compliance with safety requirements of German Federal Armed Forces
- compliance with hygiene regulations
- requires a minimum of transport- and storage capacity through a compact packing unit (reduced transportation costs)

Projects FLM

■ Field kitchen incl. cooling- and deep-freezing warehouse

■ Kitchen equipment

■ Outer view

■ Packing unit for maritime-, rail-, truck- or airlift-transportation

Projects FHQ

■ Outer view Koblenz

■ Usage as office
